natural dead sea Products

ASHTAR is the Assyro-Babylonian goddess of Love, Beauty, Health and Fertility whose domain embraced all nature which the Dead Sea is one of its miracles.

The Dead Sea is a unique body of salt water formed during a great natural-up heaval just over three million years ago. In salt water springs erupted, forming a valley and lake 400 meters below sea level - the lowest spot on earth.

A natural evaporation process continued for thousands of years, resulting in increased levels of minerals and salt in the atmosphere, which is in turn absorbed back into the Dead Sea and deposited on the Dead Sea's bed. This is where we harvest the in mineral composition of the Dead Sea, containing the highest levels of naturally formed Magnesium, Calcium and Potassium.

Since ancient times, travelers visited the region to experience the healing, beautifying and rejuvenating powers of the Dead Sea, soaking in the famous waters and coating themselves in the famous waters and coating themselves in the celebrated revitalizing Black Mud. Now, you too can enjoy the benefits of the Dead Sea, in the comfort of your home with Ashtar's range of natural Dead Sea Products.
